FOOD SCIENCE AND TECHNOLOGY

Date : 10 March 2018
Time : 1:00 pm – 1:45 pm
Venue : Seminar Rooms 1 - 4 (B3)
              Town Plaza Level 2

Food Science and Technology Programme
@ NUS: (Still) the One and Only!

Synopsis

Discover the science, technology and research that go into all types of food products. At the multidisciplinary Food Science and Technology programme, we apply principles from chemistry, biology, engineering and nutrition on a subject that is close to our hearts. You will also discover how this applied science discipline can take you further, around the world and in different industries.

Speaker

Dr Liu Mei Hui

Dr Liu Mei Hui graduated from the pioneering batch of the NUS Food Science and Technology programme. She received numerous food industry awards as a student in the programme. Following her first degree, Dr Liu was awarded the prestigious A*STAR Graduate Scholarship to pursue a Ph.D. in Molecular Biology. Her research work at the Genome Institute of Singapore and Cornell University brought her on many scientific journeys in the fields of molecular biology, nutrition and genomics. Her multidisciplinary research was recognised in prestigious journals including Nature. In September 2017, Dr Liu was appointed as Assistant Dean at the Faculty of Science, where she oversees student counselling and manages student groups and societies.
