

Department of Biological Sciences

4th Structural Biology Seminar Series, 2003

- 15 Aug 03, Fri** **Andre Menez**, *CEA, France*
"Modulation of Immunogenicity by Protein Engineering"
- 12 Sep 03, Fri** **Leung Ka Yin**, *DBS*
"A Functional Genomics Approach to the Identification of Virulence Genes Involved in *Edwardsiella tarda* Pathogenesis"
- 19 Sep 03, Fri** **Liou Yih-Cherng**, *DBS/Biochem*
"Regulating Protein Function and Signaling by Twisting Proline's Arm"
- 26 Sep 03, Fri** **Pan Shen Quan**, *DBS*
"A Global pH Sensor and its Roles in Regulating DNA Transfer and Homologous Recombination in *Agrobacterium tumefaciens*".
- 1 Oct 03, Wed** **Jack Johnson**, *Scripps Research Institute, USA*
"Functional Implications of RNA Virus Capsid Dynamics"
- 3 Oct 03, Fri** **Jack Johnson**, *Scripps Research Institute, USA*
"Structure and Maturation of a dsDNA Bacteriophage Capsid formed by Topologically Linked Protein Rings"
- 17 Oct 03, Fri** **Tian Wei Lin**, *Scripps Research Institute, USA*
"Structural Exploitation of an Icosahedral Virus as Nano-materials"
- 31 Oct 03, Fri** **Sivaraman Jayaraman**, *DBS*
"Structural Studies on Ribosomal Modifying Enzymes"

NUS
National University
of Singapore

Time: 4 - 5 pm

Venue: LT 20

All are welcome
