

# Structural Biology & Proteomic Research Group

## Seminar Series 2005

Date	Speaker	Venue: LT 20 or LT31 4 pm
13/1/05	Thr <b>Jackie Hunter</b> (GlaxoSmithKline) Discovery of drugs for neurological and gastrointestinal disorders Venue: SR1 (S2-04-11) Time: 2:30 pm	
14/1/05	Fri <b>Cheng Yifan</b> (Harvard Medical School, USA) Single particle cryo-electron microscopy study of the transferrin receptor-transferrin complex and clathrin coats	
28/1/05	Fri <b>Jason Swedlow</b> (University of Dundee, UK) Mitotic chromosome dynamics	
4/2/05	Fri <b>Lilliana Attisano</b> (University of Toronto, Canada) BMP-dependent regulation of neuronal morphogenesis	
11/2/05	Fri <b>Chu-Young Kim</b> (Stanford University, USA) Erythromycin biosynthesis	
18/2/05	Fri <b>Tom Cotter</b> (University College Cork, Ireland) Programmed cell death (apoptosis) in development and ageing	
4/3/05	Fri <b>Christopher M. Yip</b> (University of Toronto, Canada) Integrated functional imaging strategies for studying protein-protein interactions in and at membrane surfaces	
18/3/05	Fri <b>Lin Sheng Cai</b> (Hong Kong University of Science and Technology, Hong Kong) Regulators of heterotrimeric G protein signalling	
22/4/05	Fri <b>Lin Tian Wei</b> (Scripps Research Institute, USA) An icosahedral capsule for nano-medicine	
29/4/05	Fri <b>Philip Kuchel</b> (University of Sydney, Australia) Structural study of proteins and peptides in platypus venom	
6/5/05	Fri <b>James Shen Che-Kun</b> (Institute of Molecular Biology, Academia Sinica, Taiwan) Eukaryotic gene regulation and development	
13/5/05	Fri <b>Martti Tammi</b> (National University of Singapore, Singapore) Bioinformatics	
15/7/05	Fri <b>Brett Finlay</b> (University of British Columbia, Canada) Pathogenic <i>Escherichia coli</i> : The battle between the pathogen and the host
