

Instructions for Student Exchange Programme (SEP) Application AY2027/2028 Round 1

Dear FoS students,

We are glad to announce the opening of Round 1 application for AY2027/2028 SEP from **Wednesday, 2 September 2026 – Wednesday, 30 September 2026, 2359hrs Singapore Time.**

If you are keen to go on SEP in AY2027/2028, please refer to application details below.

Do note the following:

- Due to an expected overwhelming number of applicants and limited places, priority will be given to students going for SEP in their 5th or 6th semester of study (Year 3).
- Students who wish to participate in SEP in their 7th semester (Year 4 Sem 1) will only be considered for partner universities where the academic calendar does not overlap with NUS and students are able to return to NUS on time to resume their studies in the following semester.
- Students should be aware that participating in SEP has its uncertainties (e.g. unable to map courses, unable to fulfil pre-requisites, unable to secure courses, etc.) and could result in a delay in graduation beyond normal candidature and this has fee implications. Refer to Annex A, Table A and Table B for details.

Important note for DSE, Pharmacy, QF and PHS students (Refer to the SEP Briefing Slides for more information):

- DSE – Only allowed to participate in SEP in NUS Semester 1
- Pharmacy – Only allowed to participate in SEP in NUS Semester 1
- QF – Advised to participate in SEP in NUS Semester 1
- PHS – Only allowed to participate in SEP in NUS Semester 2

1. Read through the documents available on the [FoS SEP website](#). You may use the checklist to ensure that you have read through the important documents and completed the required application steps.
2. Check if you are eligible to apply for SEP based on the eligibility criteria stated on the [FoS SEP website](#).
3. Research on the university you wish to apply for (via [Global Relations Office \(GRO\)'s](#) and partner university's website) and ask yourself the following:
 - a. Is this the country and university I want to study in (i.e. not a placeholder);
 - b. Are there sufficient courses that I want to take at this partner university;
 - c. Can I support myself financially;
 - d. Is there any semester restriction; etc.
4. **Select only universities listed in 'SEP AY2027/2028 – List of Available Places (Round 1)'. Application submitted for universities out of the list will not be processed.** The 'List of Partner Universities participated by past FoS Students (by Student Major)' is available for reference. Do note that the list is based on past records and may not be applicable for AY2027/2028 SEP. You are encouraged to explore partner universities that seniors in your major have not gone to, as long as there are courses available for your major.

5. In your application, indicate up to FIVE (5) choices in order of preference or ranking. Choice 1 being your most preferred choice. You will be considered for all your choices and hence, only apply for universities you are happy to receive offers for. You will **not be allowed to change your choices** after application has closed.
6. Read the Online Application Procedures on the following pages and follow all instructions. There are two parts (EduRec application and Qualtrics form) to the application, and **both parts must be completed by the application deadline (Wednesday, 30 September 2026, 2359hrs Singapore Time)**.
7. If you have any queries or require assistance, please submit your enquiry via [SCI UG Queries](#) (category: SAP). If you encounter technical issues and are unable to receive a response by the application deadline, submit your application and supporting documents via [SCI UG Queries](#) (category: SAP) by the deadline.

Students' application will not be reviewed if they have not met the eligibility criteria for SEP application and/or did not complete all the required application procedure by the stipulated application deadline, therefore disqualified from the application.

Students may expect the outcome of the application to be released in November. Application outcome will be sent to all applicants. There may be delays to the application processing. Hence, we seek your understanding to patiently wait for the release of the outcome.

***SEP AY2027/2028 will still be subjected to NUS Senior Management's decision, immigration policies of the host country and travel advisory from the Singapore Government. In the event that SEP AY2027/2028 is suspended due to circumstances, students can expect to continue their studies in NUS.**

Additional Notes

Submission	Description
Initial Study Plan (via Qualtrics form)	• Refer to the 'List of Previously Approved Course Mappings' to aid in your initial study plan. • If you have selected PU courses which <u>are not</u> in the list of previously mapped courses, please conduct proper and thorough research on the PU courses and try your best to match to equivalent NUS courses (e.g. by comparing course content). • Please <u>do not approach departments/faculties or our partner universities regarding course mapping</u> at this stage of the application process. The Initial Study Plan will help you to decide if the PU you are choosing to go to for SEP is suitable for you. It is the onus of students to ensure that they have thought through the courses which they will take/miss while on SEP for a semester without delaying their graduation. The Initial Study Plan is needed for the purpose of application and is tentative, non-binding and unofficial. Students are still required to formally seek approval for course mapping in EduRec after they have been selected to go on SEP. Instructions to do so will be provided after students have been selected.
