

FOURTEENTH INTERNATIONAL MARINE BIOLOGY WORKSHOP 2006: THE MARINE FLORA AND FAUNA OF SINGAPORE

Edited by: K. S. Tan

CONTENTS

Fourteenth International Marine Biology Workshop 2006: The marine flora and fauna of Singapore. K. S. Tan, Lena Chan, L. M. Chou and Peter K. L. Ng	1
New records of marine algae on artificial structures and intertidal flats in coastal waters of Singapore. A. C. Lee, Lawrence M. Liao and K. S. Tan	5
Fouling sponges (Porifera) on navigation buoys from Singapore waters. Swee-Cheng Lim, Nicole J. de Voogd and Koh-Siang Tan	41
Variation in sponge composition among Singapore reefs. Nicole J. de Voogd and Daniel F. R. Cleary	59
An inventory of zooxanthellate scleractinian corals in Singapore, including 33 new records. Danwei Huang, Karenne P. P. Yun, L. M. Chou and Peter A. Todd	69
Attached mushroom corals (Scleractinia: Fungiidae) in sediment-stressed reef conditions at Singapore, including a new species and a new record. Bert W. Hoeksema	81
Depauperation of the mushroom coral fauna (Fungiidae) of Singapore (1860s–2006) in changing reef conditions. Bert W. Hoeksema and Esther G. L. Koh	91
Preliminary molecular examination of zooxanthellate zoanthids (Hexacorallia: Zoantharia) and associated zooxanthellae (<i>Symbiodinium</i> spp.) diversity in Singapore. James D. Reimer and Peter A. Todd	103
Sea anemones (Cnidaria: Actiniaria) of Singapore: abundant and well-known shallow-water species. Daphne Gail Fautin, S. H. Tan and Ria Tan	121
Fish and whips: use of gorgonians as a habitat by the large whipcoral goby, <i>Bryaninops amplus</i> (Larson). Justin Sih and Jeff Chouw	145
New nereidid records (Annelida: Polychaeta) from mangroves and sediment flats of Singapore. W. M. F. Chan	159
Psammobiont halacarid mites (Acari: Halacaridae) from St. John's Island, Singapore and remarks on the halacarid fauna of the Malay Peninsula. Ilse Bartsch	173
Water mites of the family Pontarachnidae from Singapore, with a description of one new species (Acari: Hydrachnidia). Harry Smit	203
Sacoglossa (Mollusca: Gastropoda: Opisthobranchia) from Singapore. Kathe R. Jensen	207

A review of the Bopyridae (Crustacea: Isopoda) of Singapore, with the addition of four species to that fauna. John C. Markham	225
Intertidal assemblages on coastal defence structure in Singapore I: A faunal study. A. C. Lee, K. S. Tan and T. M. Sin	237
Intertidal assemblages on coastal defence structure in Singapore II. Contrasts between islands and the mainland. A. C. Lee and T. M. Sin	255
Vertical distribution, spawning and recruitment of <i>Siphonaria guamensis</i> (Gastropoda: Pulmonata) on a seawall in Singapore. C. K. Chim and K. S. Tan	279
Management for long-term sustainability of marine habitats in Singapore: a science-based approach. Nigel Goh	283
Dates of publication of the Bulletin of the Raffles Museum and Bulletin of the National Museum, predecessors to the Raffles Bulletin of Zoology. Martyn E. Y. Low and S. H. Tan	285
