

Invertebrate Taxonomy

A JOURNAL FOR INVERTEBRATE TAXONOMY

The journal *Invertebrate Taxonomy* came into being in 1987, elevated from the *Australian Journal of Zoology* Supplement series. It is an international journal for publication of original contributions on taxonomy, biogeography and phylogeny of invertebrates of the Indo Pacific region.

There are 6 bimonthly issues totalling about 1300 pages annually. Page charges are not levied, and there is no page limit on papers published. Turn-around time for shorter papers is between 6 months and 1 year. The Journal is published by CSIRO Editorial Services and exhibits the same excellence in editing and production found in the other internationally recognised journals from this source. The advisory committee is composed of leading Australian scientists and is further supported by a committee of eminent international scientists.

In the past the Journal has been perceived as primarily entomological in content, as a venue for monographic papers and slow to publish. The Journal will continue to publish monographic papers, but is actively striving to broaden the diversity of copy. Currently half of the Advisory Committee members are marine biologists. The Journal would welcome papers on taxa other than terrestrial arthropods, as well as papers dealing with phylogeny, biogeography and methodology.

Taxonomists seeking a venue for fast, high quality publication of their research should contact: Dr Niel L. Bruce - Editor, PO Box 89, East Melbourne, Victoria 3002, Australia, or one of the Regional Advisors: R.A. Bray - The Natural History Museum, London; R.C. Brusca - Natural History Museum, San Diego; J.P. Duffels - Institute of Taxonomic Zoology, Amsterdam; D.L. Pawson - National Museum of Natural History, Smithsonian Institution, Washington, D.C.
